

Winscombe Community Charging Point

Instructions

Charging Partners:

Tap Electric (EV charging management)

Payter (Payment System)

1. Plug In

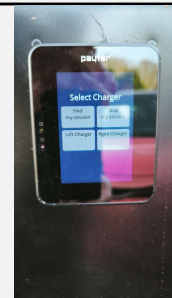

Plug in your lead into the Charging Point and into your EV Car.

2. Select

Select which charger you are using.

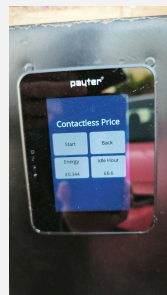

Either Left hand or Right hand

3. Initiate

Check the price per kW you will be paying. This amount includes a 10% fee charged by Tap Electric for the pay as you go Tarff and VAT. There is also a 40p connection charge. This pays for the Payter monthly charge the WCA need to pay.

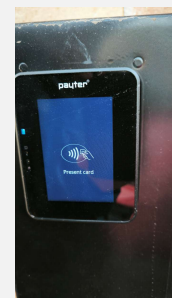

Then press the Start.

4. Pay

The Payter system will ask for a bank card or phone to touch the screen. After authorisation your car will start charging.

Note: if you are using the Tap Electric App you can do everything on your phone.

5. Stop

To stop the charge, select your charging point, Then select '**Stop**' and present the bank card which you used to start the charging session. The session will now stop. Remove leads and please move to another parking bay to allow others to use the facility.
